CONTRACT FORMATION, APPROVAL CONFIRMATION & INCORPORATION OF TERMS

Customer and KINTO agree that terms of modules available on links specified and designated for incorporation in Module CMOF and/or in this SOW are incorporated into the Agreement as if included in hard copy. Module content reflects mandated KINTO standards however, if exceptionally KINTO should agree minor variations, any restated module included before signing in hard or digital copy shall prevail over standard module terms.

Customer and KINTO agree that prior to product or service provisioning by KINTO Module TS is to be adapted with details of products and services to be contracted and signed in hard or digital copy between Customer and KINTO (SoW), upon which SoW becomes part of, and subject to all terms and conditions of the Agreement. Multiple SoW's may be made under the Agreement provided that KINTO may at its sole discretion require the inclusion of an updated Module CMOF with any supplementary SoW prior to signing or apply automatic updates for most current terms.

By signing below Customer and KINTO agree that a legally binding contract is formed by and between Customer and KINTO including Module CMOF, all other modules specified and all SoW's on and from the Effective Date for the SOW Term (Agreement).
